## **Letter of Recommendation**

Tonya Beck, Vice President, AdServices Inc.

“It is my pleasure to write a recommendation for Alex Duran. I have worked with Alex in various roles during his employment of three years with AdServices.

Alex was brought onto our team as an Account Executive. From there we transitioned him to spearhead a new marketing initiative for our company called Marketing Automation in addition to overseeing our IT needs. Alex embraced his new role with very little guidance, therefore, we promoted him to Marketing Manager for the company.

I found Alex to be a strategic thinker providing thorough explanations and data to support his plans. He also works great within a team by engaging others to get a project through to completion. I believe Alex will be an asset to any company. He is a diligent and trustworthy worker who showed us that he needs very little management.”
